

Are disconnected apps, repeat data entry and broken workflows slowing down your team?

GLOO™ leverages advanced integration technology to offer a fully managed solution that finally connects all your apps freeing up your team to focus on growing your business.

- Choose from 400+ cloud-apps to connect.
- Our engineers work with you to map out each integration scenario in detail.
- We configure, deliver and host your integrations - **completely hassle-free!**

- > GLOO is powered by a flexible and scalable integration platform backed with the most up-to-date connectors for hundreds of apps.
- > GLOO ensures data flows smoothly and logically between your apps.
- > Your service includes hosting, continuous API updates & our fanatical customer support.
